Why study BTEC Business?

The BTEC Level 3 Extended Diploma in Business is one of the few qualifications that will help you succeed in your future career no matter what you go on to do. The principles of business that you will learn here underpin every organisation from marketing to interpersonal and presentation skills. You'll have the opportunity to gain specific knowledge in areas such as Finance, Economics, Marketing, Human Resources, Customer Service and Business Planning. You will also develop management and leadership skills and will have an understanding of what you need to know to start your own business!

What can I do with BTEC Business after Sixth Form?

A BTEC Extended Diploma in Business will provide you with a broad-based business education which would be a suitable introduction for both higher education courses and entry into a specialised business career. The successful completion of the 13 units is equivalent to 3 GCE A-Levels, so this can lead on to university degree courses in business.

BTEC Business Extras

The course will engage with local and national business organisations and experienced business people will attend the college to speak to and work with the students. There will also be opportunities to visit and investigate business organisations.
